

# Optimum performance and maximum availability

## Winder technology service

The performance of your winder is decisive for the efficiency of your paper machine. If not all your key performance indicators at the level of their original delivery status, it can lead to capacity bottlenecks in the whole paper production.

We help you to keep your winder at the optimum level with our expert service.

---

### Key benefits

- + Increased production due to higher speed and faster change times
  - + Time and money savings due to improved availability
  - + Fast identification of the winder bottlenecks in terms of capacity, quality, and safety
  - + Reduced total maintenance costs
  - + Expert remote support 24/7
-

#### **Voith value proposition**

For paper, board and packaging producers who have bottlenecks in the winder performance, our service is a partnership approach based on our combined know-how of automation and technology that boosts the winder performance.

Unlike conventional maintenance, our service has a higher efficiency which leads to the safest environment by reducing operators' stress. This is possible as we have the expert's knowhow to early identify issues and improve performances.

#### **Purpose of service partnership**

We improve the user friendliness and efficiency of your winder, resulting in maximized capacity and desired cutting quality.

#### **Automation and drive service**

Our future-oriented winder control is impressive – not only because of its high precision, reliability, and ease of operation, but also for its wide range of options in terms of reporting, analysis, and remote service functions. With Voith automation and drive upgrades, these potentials can be utilized systematically, thus optimizing performance and reliability of the winders and making them future proof.

#### **Expert remote support 24/7**

- Remote diagnostics via modem or internet
- Fast emergency help, fast fault analysis
- Software or parameter adaptation online
- Short downtime

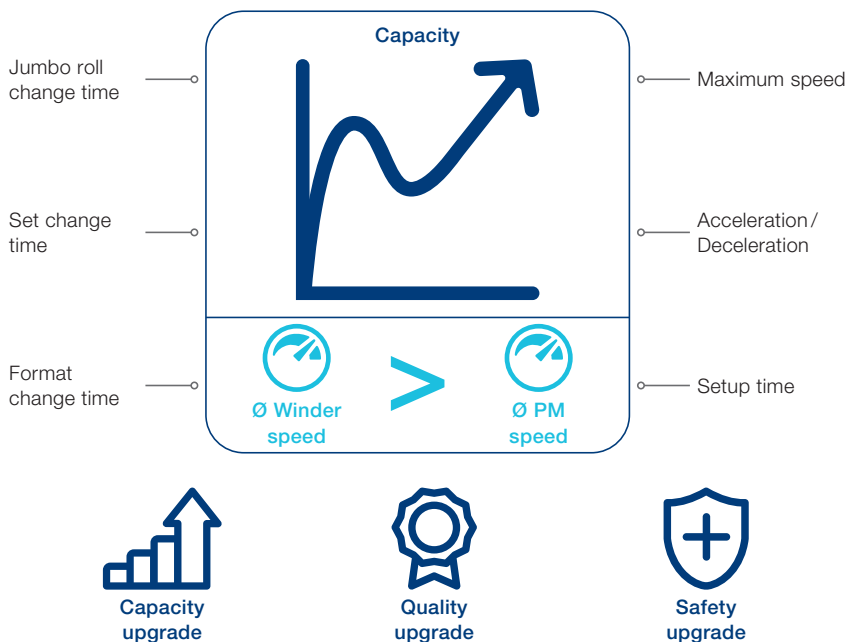

“The biggest benefit of our winder service partnership with Voith is the fact that it can’t be simply narrowed down to a single advantage – it’s the complete package that makes it so valuable to us. It’s everything from Voith’s unrivalled expertise in the areas of automation and technology, to the annual on-site visits and 24/7 hotline support. All this adds up to a deal that is very useful and important to us.”

**Urban Marklund,**

Production Technician at SCA Munksund AB in Sweden

### Winder KPI boost

The key to the best solution for our customers is to identify the bottleneck of the winder regarding capacity, quality and safety. For each KPI we have the right solution to improve your conditions.

Voith is the OEM of the following winder types:

- VariTop
  - VariPlus
  - VariRoll
  - DuoRoller
  - VariFlex
  - VariStep
  - VariDur
  - ML
  - and even more!
- Best service results for your winder

Additional benefits through winder service agreement:

- Continuous improvement and tracking of winder performance
- Expert availability in case of problems by remote support 24/7
- Easy access and consultation to newest Voith winder upgrade solutions
