1.4 Add Supplier Contacts

The screenshots shown in this chapter are based on a supplier account with administrator rights. Changes to company data should preferably be made using an administrator account, as this provides access to all available functions.

The key differences are:

- > Administrators can create new users and assign administrator rights to them.
- > Non-administrators can create users but cannot assign administrator rights.

This overview displays all auctions to which a user has been invited. You can open an auction by simply clicking on the name of the event. After selecting an auction, the auction monitor will be displayed. This is explained in more detail in the following use cases.

Note:

Each auction has a unique auction number. This number is also included in the invitation email. You can identify the correct auction by searching for the corresponding auction number in the system. If more than one auction exists with the same number, always participate in the active auction. An active auction is indicated by a green icon. When you hover over this icon, the status will be shown as "running" or "checking."

As soon as a participant places a bid, the auction for that position is closed (first come, first served). If the auction is closed and you were the first to accept the price, a green check mark will appear next to your bid. This means you are the winner for this position.

If another supplier accepted the price first, a red symbol will appear. This means you are **not the winner** for this position.

The remaining positions may still be subject to further bidding or development.

Once an event starts, the remaining time for the currently displayed price level is shown as a countdown.

1. You must place a bid for each price level.
2. Confirm your bid by clicking "OK" in the pop-up window.

The timer then runs until the next step is displayed, which must be confirmed again. If you do not click on a step, this means that you accept the currently displayed price.

4 Purchase Order Management / WebEDI

The purchase order is issued by Voith, and the order confirmation is provided by the supplier electronically via PurONE. Any documents attached to the purchase order by the customer can be viewed and downloaded.

Remark of decline (copy to all positions)

Click Instructions

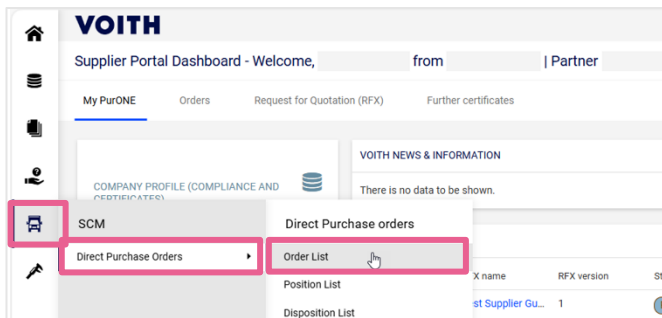

If you make changes to the order as part of the order confirmation, the buyer will be informed and will review your entries.

1. Please check the requested delivery date. If you cannot meet this date, enter the feasible delivery date using the calendar function. You can use the blue arrow to apply the changed delivery date to all items.
2. Please check the ordered quantity. If partial deliveries are required, enter them using the "Split" function. Please note that even in the case of partial deliveries, the total confirmed quantity must match the originally ordered quantity.
3. Please check the price and any additional conditions. Adjust if necessary.

4. Please use the "Remarks" field to pass comments, notes, or additional information on to the buyer.
5. Please enter your order confirmation number under "Confirmation." If you enter it in the "Supplier confirmation number" field at the bottom, it will be applied to all items and does not need to be entered separately for each position.
6. You can reject individual items or the entire order using the "Decline" button (button at the bottom).
7. By clicking "Save and send back," you submit your order confirmation to Voith.
8. Additional information:
 You can choose whether to confirm an item by selecting the checkbox.
 By default, all items are selected.
 Items that have already been confirmed do not need to be confirmed again.

4.4 Access All Purchase Orders

System View

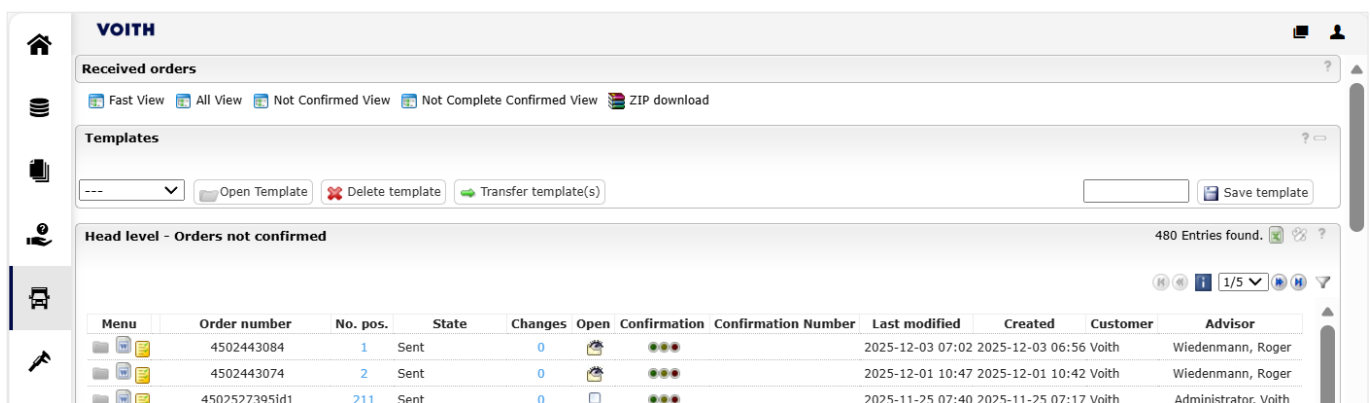

Click Instructions

If you want to access orders after submitting the confirmation, you can find all orders in the "Order List."

If the goods receipt has not yet been posted by Voith, you can still change the order confirmation you submitted.

1. Click on the "SCM" icon in the task bar on the left-hand side of the homepage.
2. Click on "Direct Purchase Orders" and then on "Order List" to open the order list.

System View

Click Instructions

1. Click on "All" (All View) to get an overview of all orders, regardless of their status.
2. Using the filter icon on the right-hand side, you can filter the list by various criteria, for example by order number or your confirmation number.
