Table of Contents

1	List of approved oils	1-1
<hr/>		
1.1	Oils for oil change interval up to 120,000 km	1-2
1.2	General limitations of oil change intervals	1-7

1 List of approved oils

The list of approved oils is permanently updated

Each time the list of approved oils is updated, the version number is incremented by 1. The version number is made up of the last two figures of the number of the list of approved oils. Only the list of approved oils with the highest version number is valid. For the current and binding list of approved oil, please visit MyVoith in the eDoc application or the following link:

www.voith.com/brochures/H55.6336xx

In case that you do not have an internet access, please contact directly our Support or the respective Voith national representative.

1.1 Oils for oil change interval up to 120,000 km

Index ¹⁾

The use of transmission oils with index ¹⁾ ensures that Voith DIWA transmissions which are certified according to Regulation (EU) 2017/2400, comply with the certificate after the initial filling by the vehicle manufacturer (OEM).

According to Regulation 2017/2400 of the European Union, the CO₂ emissions and the fuel consumption are determined for the type approvals of heavy commercial vehicles.

Changing the transmission oil and replacing the filter element

The instructions in the respective maintenance manual or in the vehicle-specific documentation must be observed.

1.2 General limitations of oil change intervals

- Voith reserves the right to adjust the oil change intervals stated above in certain cases, depending on the operating conditions indicated.
- As a basic requirement for the applicability of the specified oil change intervals, the cooling system of the vehicle must be regularly maintained and fully functional.
